

BRAND REFERENCE

Claude Design Use Cases.

26 ways to use Claude Design across the platform.

MAY 2026 · CYCLING HAWAI'I

The brand is the system.

Claude Design is the right tool for this — and Cycling Hawai'i is the right project to explore it on, because every surface of the brand is already documented at cyclinghawaii.com/brand. You feed it the system, it generates within the system.

The 26 use cases on the following pages are organized by how often you'd ship them — quick wins to start, then recurring templates for cadence, then event-driven and operational pieces. Pick a few. Build. Iterate. The brand reinforces itself with every output.

Start here. Low effort, high reuse.

Pick 2–3 of these for your first few designs to build the muscle. All four are templates you'll reuse for years.

- 01** Gear Review Card • IG single post
Big product photo (Rodrigo shoot output) + Laura's tagline + price tier + "View on cyclinghawaii.com/gear". Square format • 1080×1080 • brand colors locked in.
- 02** Event Countdown Card • IG Story
Vertical 1080×1920 • event hero photo • "Aloha Gravel • 90 days" in big Space Grotesk • CTA to register. Make a 4-pack: T-30, T-7, T-1, T-0.
- 03** Manifesto Quote Card • IG single post + reel cover
Type-only design over a Cycling Hawai'i photo (or solid orange). "No team kit. No drop rides. No podiums — and the audacity to call it a club." Square. The Vini-says-it card.
- 04** Conditions Read • IG Story, daily-ish
Pulls from the conditions API on /club. "Trades 18mph from NE. Tailwind toward Hāna." Vertical • Laura voice. Becomes the Cycling Hawai'i morning report on IG.

For sustainable cadence.

Reusable systems that feed your social media every week without thinking. Build the format once, drop in fresh content forever.

- 05** The Wall — Weekly Recap · IG carousel
3–5 cards. Each slide = one ride from the club: athlete avatar, ride name, miles/elevation, Laura's narration. Brand stays consistent across slides.
- 06** Tour de Maui — Stage of the Month · IG single post
Stage badge + month + key stats (mi, ft, queen-stage indicator) + route preview + Laura's blurb. Once a month, year-round.
- 07** Member Spotlight · IG carousel
Featured rider · their peloton role · their stats · Laura's specific take on them. 30-word Laura roast as the centerpiece.
- 08** “This Week’s Roast” · IG single post
A Laura quote pulled from /log with attribution. Type-only design over a textured photo background. Like a literary magazine pull-quote.
- 09** Strava Club Update · IG Story
“Twelve riders. 1,840 miles together this week. ^ from last week.” Collective stats card, recurring, ambient social proof.
- 10** Conditions Read — Daily · IG Story
Same template as #4 but daily. Locks in your IG presence without requiring fresh content every day.

One-off. High effort, high impact.

When a real moment is approaching — Aloha Gravel, Pedal IMUA, a Tour stage — you ship a piece worth the moment.

- 11** Event Poster · printable + IG
Aloha Gravel · Pedal IMUA · Cycle to the Sun · Tour stages — full poster treatment, vintage cycling poster aesthetic. Could be merchable as collectibles.
- 12** Race Day Stories · IG Story sequence (6–10 cards)
Day-of cards: pre-race, on-course, finish-line, results, ohana party. Templated so the day they happen, you just drop in the hero shots.
- 13** Course Preview Graphic · IG single post
Elevation profile + map + key facts (gradient, distance, signature climb names). For each Tour de Maui stage, each major event.
- 14** “You’re Registered” Card · stand-alone for sharing
When someone signs up for an event, they get a brand card to share. “I’m riding Aloha Gravel. Are you?” Hashtag: #cyclinghawaii.

Relationship-builders. Monetization-adjacent.

The cards riders frame, share, and brag about. Belonging is a brand asset.

- 15** “Welcome to The Twelve” · printable + digital
Personal welcome card sent to each rider when they make The Twelve. Their peloton role · ViP No. · numbered/dated. Limited-edition energy.
- 16** Peloton Role Card · per-role design
“The Climber” · “The Sprinter” · “Lanterne Rouge” — beautiful illustrative card for each role. Riders share when they're awarded.
- 17** Yellow Jersey Card · monthly
Whoever holds the yellow jersey at month-end gets a custom card. Frame-worthy.
- 18** Roster Annual · year-end keepsake
The 2026 Twelve — group photo or composite of their avatars in a circular layout (matches the Inner Circle). Annual tradition piece.

Ship once. Use forever.

The strategic assets that compound over time. Worth treating as long-term infrastructure.

- 19** Sponsor One-Pager · PDF + print + digital
The pitch document for any brand that reaches out. Mission, traction, audience demographics, content quality samples, contact. Critical for monetization Phase 2.
- 20** Press Kit / Brand One-Sheet · PDF
For any cycling media that asks. Story, founder bio, key visuals, sample Laura voice, links. Have this ready before any reporter asks.
- 21** Email Newsletter Header
For the eventual newsletter. Cycling Hawai'i branded, customizable per-issue.
- 22** Strava Club Branded Header Image
The club description on Strava can have a header image. Currently default — replace with branded.
- 23** YouTube Channel Art + Thumbnails Template
Master template for video thumbnails, with Laura's voice, brand colors, type style. Apply to every video.
- 24** Pre-roll Bumper for Videos · short animated clip
3–5 sec animated logo/intro for the start of every Cycling Hawai'i video on YouTube/IG. Consistency = brand recognition.

The brand goes where Vini goes.

25 Cycling Hawai'i Business Card

For real-life conversations. Vini's name + "Founder, Cycling Hawai'i" + URL + IG.

26 Race Plate / Bib Number

For when you race. Cycling Hawai'i branded plate to attach over the standard race number.
Photographed riding = free brand exposure.

Start here.

If you build these five first, you have a content engine. Ship them. Iterate. Then add #6 and #7 for weekly cadence. Add #11 (event posters) when each event approaches.

- 01** Gear Review Card
Multi-use. Every gear item gets one. Builds the format muscle.
- 02** Manifesto Quote Card
Type-only. Easiest. Drop-and-go content for IG.
- 03** Event Countdown Card
Aloha Gravel and Pedal IMUA are real upcoming events. Real reason to ship.
- 04** Conditions Read
Daily/weekly cadence. Anchors your IG.
- 05** Sponsor One-Pager
Strategic asset. Pull out when needed. Compounds over time.

Once you have these five, you have a content engine. Add #6 and #7 to build the recurring weekly cadence. Add #11 (event posters) when each event is approaching.

Every output should pass the brand book test.

Open cyclinghawaii.com/brand next to anything you generate and verify all eight:

- ❓ Strava-orange used as the identity color (not generic orange)
- ❓ Space Grotesk for display, Inter for body
- ❓ Eyebrow style — uppercase, wide tracking, strava-orange — above headlines
- ❓ Dual-color title pattern when a hero phrase has an identity word
- ❓ Em-dash punchline structure when listing
- ❓ Italics only for Laura's voice
- ❓ No emojis in body copy (only in chips/UI)
- ❓ No hype words

The brand book is the compass. Anything you generate should orient to it.
